

# Ellereve

## **ELLEREVE – a storm of sound and soul.**

*Drawing from the depths of post-metal, doom and blackened textures, Ellereve explores the complexity of emotion without ever losing the haunting, cinematic essence that defines her musical identity.*

Behind Ellereve stands mastermind and multi-instrumentalist Elisa Giulia Teschner, blossoming in the majestic scenery of the Austrian Alps near Innsbruck, where she forged a sound rich in emotional intensity and yearning.

With the release of her debut album *Reminiscence* via Eisenwald Records, Ellereve firmly established her sonic identity, creating a post-apocalyptic world of introspective gloom and soulful harmony. On several international stages such as Amplifest Porto, Rockhouse Salzburg, WGT Leipzig, Feierwerk Munich, KAPU Linz and many more, she has captivated audiences with her haunting live presence and emotionally charged performances.

Recently, Ellereve released her second album *Umbra* - a bold and unexpected shift into heavier territory. *Umbra* delves deep into cathartic extremes: towering post-metal surges, darkly cinematic passages, and moments of fragile beauty merge into her most intense and dynamic work to date. The album also features guest vocals from Michael J.J. Kogler of Harakiri for the Sky / Karg and David “Eklatanz” Conrad of Heretoir – their voices weave seamlessly into *Umbra*, deepening its emotional gravity and widening the shadows in which the album comes alive.
